👤 Profile

React & Next.js Developer with experience building responsive, performance-driven applications. Strong frontend expertise with React, Next.js, and TypeScript, with backend development mainly using Next.js along with Node.js, Express, MongoDB, and Mongoose. Skilled in API integration, state management with Redux Toolkit, and creating clean UIs using Tailwind CSS and Bootstrap. Eager to contribute expertise to impactful projects and grow as a full-stack developer.

📁 Professional Experience

React, Next.js, and TypeScript Developer, Alphinex Solutions 📧 2025 Feb – present | Rawalpindi, Pakistan

- Developed and maintained features for the StaffVertex project from scratch using React, Next.js, and TypeScript.
- Integrated APIs with Redux Toolkit (RTK) to optimize data flow and application performance.
- Collaborated with backend APIs to modify logic, retrieve additional data, and customize responses.
- Contributed to both frontend and backend development, with a primary focus on building UI components.

📁 Projects

Staffvertex (Alphinex Solutions)

2025 July – present

- A team management and time tracking tool, built with React.js, Next.js, TypeScript, and Tailwind CSS.
- Backend powered by Next.js APIs with MongoDB and Mongoose.
- Developed the project from scratch, built scalable UI components, and optimized state management with Redux Toolkit.
- Implemented API integrations with Redux Toolkit for improved efficiency and state management.

Timsync

2024 Sep – present

- Task and time synchronization platform under development.
- Tech Stack: React.js, Next.js, Tailwind CSS, Redux Toolkit.
- Designed for streamlined task tracking with responsive UI and efficient state management.
- Stores data locally in encrypted form to ensure security and privacy.

🎓 Education

Bachelor's in Software Engineering

2024 Sep – 2027 Sep | Pakistan

National University of Modern Languages, Islamabad Campus
